

Yamaha's XS11 Tourer wins Australia's top Production Race!

Never has a Castrol Six Hour Race seen such a formidable field of supermachines. The top model from each of the great manufacturers was there and a lot of reputations were at stake.

The Team Avon Yamaha XS11 clearly won. It should have come as no surprise, however. The fabulous XS11 tourer had already won the year's three other important long-distance production races (Adelaide 3 Hour, Perth 4 Hour, Surfer's 3 Hour).

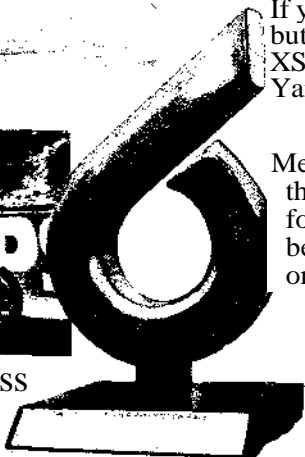

The Six Hour Race win now proves that NOBODY has a production machine that can stand up to Yamaha's mighty XS11 tourer.

If you want nothing but the best, see the XS11 at your local Yamaha dealer now.

Meanwhile, the fight for second best goes on.

the undisputed boss
